“Management for Effective Diakonia”

LWF’s 3rd Virtual Conference on Diakonia

10 March 2016

Programme and registration: <http://lwfconference.lutheranworld.org>

About

Good management and work practice are critical in carrying out diakonia, or service to the community. Even with the best of intentions, sustainable results are impossible in the absence of core competencies.

Following on from two similar conferences in recent years this third virtual conference on diakonia focuses on enhancing the ability of member churches to offer practical, life-changing programs to the most vulnerable people in their communities.

Where?

Wherever you have an internet connection. Management for Effective Diakonia is a virtual event during which content is shared and participants communicate in real-time via the internet.

When?

Round 1 | 9:00 AM - 1:00 PM (GMT+01:00)
Round 2 | 2:00 PM - 6:00 PM (GMT+01:00)

How?

Registration is free. A computer with an internet connection and speakers or earphones is required to participate. Participants who do not have these facilities can apply for small grants to visit an Internet Café.

Most of the content will be presented in video format and subtitled in three languages (English, Spanish, French). Participants can comment and take part in discussions via text chat and speakers will respond in real time to questions.

Contact: Mr Abebe Yohannes Saketa, Program Coordinator, Abebe.Yohannes@lutheranworld.org
Mrs Nadia Fetouni Kharoua, Program Assistant, Nadia.Kharoua@lutheranworld.org
